NCI login (if you already have a NCI user account):

If you are a student, please provide supervisor contact information (these would not appear on the **list of users** page).

Name of supervisor: Silvano Fares

Position in organisation: Senior researcher

Address: via valle della quistione (Rome) Italy

Email: silvano.fares@crea.gov.it

Telephone number: +39 3395364280

From where or whom did you hear about the CABLE model? Literature

Please provide a short description of your intended use of CABLE and anticipated intended research results (including proposed publication time frames, if any).

I would like to understand how the coupled photosynthesis / stomatal conductance model has been developed. I need to use the Medlyn model in a multi-layer canopy model.
