

Part 2 – User to complete:

Name of user: Shuangxi Zhou

Address: Department of Biological Sciences E8C Building Room 275 Macquarie University
NSW 2109 Australia

Email: shuangxi.zhou2014@gmail.com

Telephone number: +61 2 9850 4230

(Please note that the above details may be posted on the **list of CABLE users** page and used by CSIRO in accordance with the Software Licence Agreement.)

NCI login (if you already have a NCI user account):

Please select one of the following:

(a) ☒ I am requesting an individual CABLE licence

(b) ☐ I am requesting a User account under my Organisation's CABLE licence

If you have selected (b), please state which Organisation:

☐ Student

☐ Employee

☐ Other (please state)

If you are a student, please provide supervisor contact information (these would not appear in the **list of users** page). Your supervisor's signature is also required to indicate that they approve your registration.

Name of supervisor: Martin De Kauwe

Position in organisation: Research Fellow

Address: Department of Biological Sciences E8C Building Room 205 Macquarie University
NSW 2109 Australia

Email: mdekauwe@gmail.com

Telephone number: +61 2 9850 9256

Supervisor's signature:

Date:

*****11/6/2014*****

From where or whom did you hear about the CABLE model?

Martin De Kauwe

Please provide a short description of your intended use of CABLE and anticipated intended research results (including proposed publication time frames, if any).

Using CABLE to test if the hypothesis on contrasting stomatal limitation on photosynthesis found in species of diverse climatic origins would be simulated in land surface models.

I have read and will comply with the Software Licence Agreement and the Guidelines for users and developers of CABLE:
