

Registration Form for using CABLE

Instructions for Completion:

Organisations requesting a licence must complete Part 1.

Users from that organisation requiring access to the CABLE code repository need to individually complete Part 2.

Individuals can apply for their own licence by completing Part 2 only, provided that they can warrant the use of their Improvements as stated in clause 6.3 of the licence.

Part 1 – Organisation to complete:

Name of Licensee organisation:

ABN:

Name of contact: _____
(Title) (First name) (Last name)

E-mail: _____

Telephone number: _____

Postal Address for notices: _____

By submitting this signed Form, the Licensee represents that:

- i) it has read and accepted the current Software Licence Terms for CABLE located at <http://www.cawcr.gov.au/projects/access/cable/index.php> and
- ii) its Permitted Users are those users who have completed Part 2 of this Form and anyone else to whom the Licensee and/or the Licensee contact has granted CABLE access pursuant to the Software Licence Terms.

Registration Form for using CABLE

Part 2 – User to complete:

Name of user: Matthew Pryor

Address: JCHMR, Maclean Building, Wallingford, Oxfordshire, UK, OX10 8BB

Email: matt.pryor@metoffice.gov.uk

Telephone number: +441491 692475

(Please note that the above details may be posted on the list of CABLE users page and used by CSIRO in accordance with the [Software Licence Agreement](#).)

NCI login (if you already have a NCI user account): 

Please select one of the following:

(a) I am requesting an individual CABLE licence

(b) ~~I am requesting a User account under my Organisation's CABLE licence~~

If you have selected (b), please state which Organisation:

Student Employee X Other (please state)

If you are a student, please provide supervisor contact information (these would not appear in the list of users page). Your supervisor's signature is also required to indicate that they approve your registration.

Name of supervisor:

Position in organisation:

Address:

Email:

Telephone number:

Supervisor's signature:

Date:

From where or whom did you hear about the CABLE model? Collaboration with CSIRO

Please provide a short description of your intended use of CABLE and anticipated intended research results (including proposed publication time frames, if any).

I will be looking at modularising JULES and CABLE, initially so that they can be used in a common framework as standalone models and as the land surface scheme in the Met Office UM. Longer term, the aim is to have a more modular system that allows individual components from each model to be used.

This work is being done in collaboration with Rachel Law and Jhan Srbinovsky.

I have read and will comply with the [Software Licence Agreement](#) and the Guidelines for users and developers of CABLE:
