From where or whom did you hear about the CABLE model? Andy Pitman

Please provide a short description of your intended use of CABLE offline. And please inform us when your work involving CABLE is being published.

I intend to use CABLE at a resolution of ~1km over an Australian catchment. I will be using a number of fields derived from satellite data to evaluate and improve the model , eventually leading the possibility of directly assimilating this data.

Please read the [Licence Agreement](#) (which does not require your signature) before sending the filled registration form via email to [Bernard Pak](#) .
