From where or whom did you hear about the CABLE model?

From scientists at the Bureau of Meteorology

Please provide a short description of your intended use of CABLE and anticipated intended research results (including proposed publication time frames, if any).

As part of my Future Fellowship I will be performing data assimilation studies. For this reason, I will need to implement a multiscale data assimilation procedure in the model, combined with an online model and observation bias estimation algorithm. This should lead to 2-3 good journal papers within the next 2-3 years.

I have read and will comply with the [Software Licence Agreement](#) and the Guidelines for users and developers of CABLE:
