From my supervisor, literature and a research scientist within my institution. Please provide a short description of your intended use of CABLE and anticipated intended research results (including proposed publication time frames, if any). The project will consist on running offline regional simulations over irrigated fields within Saudi Arabia. The output of evapotranspiration will then be compared with in situ measurements. At the same time, GRACE-derived trends of water storage depletion will be assimilated into CABLE. We intend to see an improvement in CABLE ET estimates. I have read and will comply with the Software Licence Agreement and the Guidelines for users and developers of CABLE:
